PROFESSIONAL RESUME

Web Developer student, with great interest in accessing the labor market to put my knowledge into practice. I am a hardworking, communicative and committed person. I would like to find an opportunity to gain more professional experience.

SKILLS

- NodeJS
- Backend developer
- Problems resolution
- HTML y CSS
- Motivation and inspiration

EMPLOYMENT HISTORY

January 2022 - April 2022
Backend Developer ITconsultans | Pachuca, HID

- Creation of web applications in Node JS.
- Connection with MySQL databases and NodeJS.
- Creation of CRUD for the administration of a sales system with different routes.
- Creation of databases in MYSQL.
- Organization and separation of the code into different components to facilitate it´s administration.
- Creation of shopping cart for an ecommerce
- Development of several frontend interfaces with pure HTML and CSS including gradients, and responsive-desing to adapt to different device screens.
- integration of version control systems such as GIT and GitHub.

TRAINING

2022
Computer systems engineer | Engineer in computer systems
Polytechnic University of Tulancingo. Tulancingo, HID
I Studied the career of computer systems engineer learning different kind of disciplines of the career including the creation and administration of networks with CISCO, programming in different programming languages such as Java, JavaScript, PHP and other languages such as HTML, CSS, and SQL, among other areas such as computer equipment maintenance and the creation of integrated circuits, but my focus has been towards the area of web development, specifically backend development with NodeJS and
the creation of interfaces with HTML and CSS.
